AUTHOR WEBSITE — UPDATED PAGE-WISE REQUIREMENTS

Please follow the updated website structure and requirements below. These instructions define the content, layout and functionality expected on each page.

1. HOME PAGE

The Home page will have the following structure:

A. Hero Section

- A dedicated hero section at the top.
- Main heading, tagline and supporting text.
- Appropriate background visuals and CTA buttons.

B. Remaining Homepage Sections

Below the hero section, the remaining content should follow a clean, normal page layout. Keep the sections organised, minimal and easy to navigate.

The exact content and design of the Home page will be discussed and provided separately.

C. Email Subscription Section

Add an email subscription section near the bottom of the Home page, immediately above the footer.

Requirements:

- Short subscription heading.
- Brief supporting text.
- Email address field (required).
- Subscribe button.
- Proper email validation.
- Successful subscription confirmation.
- Secure storage of subscriber information.

The subscription section must appear above the footer, not inside it.

2. ABOUT PAGE

The About page should be very simple.

Structure:

1. One hero section.
2. One content section below the hero.

I will provide the final About page content separately.

Please do not add unnecessary sections, timelines, achievements or additional information.

3. BOOKS PAGE

The Books page will contain two sections:

A. Published Books

- Display officially published books.
- Each book should show its front cover, title and relevant details.
- Individual book detail pages should be available.
- Add purchase links wherever applicable.

B. Upcoming Books

- Display upcoming books using ONLY their front cover images.
- Do not add descriptions, long introductions or unnecessary details.
- Keep the presentation clean and visually consistent.

Book details and publication status should be manageable through WordPress.

4. WRITINGS PAGE

The Writings section will have exactly TWO categories.

A. ARTICLES

Articles should be displayed in a standard blog-style layout.

Each article listing should include:

- Article title.
- Featured image, if provided.
- Short excerpt, if required.
- Publication date.
- Read More link.

Each article must have its own individual reading page.

The layout should be similar to a clean, modern editorial blog.

B. PHILOSOPHY

This section will contain philosophical thoughts and writings.

The purpose is to publish original philosophical ideas, reflections and thoughts through which Anant explores the principles of philosophy and their connection with meaningful outcomes and achievements in life.

Requirements:

- Clean and minimal presentation.
- Individual philosophical thoughts or writings.
- Clear and readable typography.
- Proper spacing between thoughts.
- Option to open and read longer philosophical content separately, where applicable.

Do not create a separate Essays category.

5. CONTACT PAGE

Create a simple and professional contact page.

Required Form Fields:

1. Name — Required.
2. Email Address — Required.
3. Message — Required.

Submit Button: SEND MESSAGE

Requirements:

- Validate all required fields.
- Validate email format.
- Securely process submissions.
- Send notification to the designated email address.
- Display a confirmation message after successful submission.
- Include spam protection.

6. ASK PAGE

Create a separate page for visitors who want to submit questions.

Required Form Fields:

1. Name — Required.
2. Email Address — Required.
3. Question — Required.

Submit Button: SUBMIT QUESTION

Requirements:

- All three fields must be mandatory.
- Validate email format.
- Store submissions securely.
- Send an email notification to the administrator.
- Display a confirmation message after successful submission.
- Questions must not be published automatically.
- The administrator should be able to review and manage submissions.

Please keep Contact and Ask as two separate pages with separate forms and submission management.

7. FOOTER

The footer should contain three main sections.

All three sections must appear in ONE HORIZONTAL ROW on desktop, with equal-width columns.

A. EXPLORE

- Books
- Articles
- Philosophy
- Ask

B. CONNECT

- Instagram
- LinkedIn
- Other official social media links, if provided.

C. LEGAL

- Privacy Policy
- Copyright Policy
- Terms & Conditions
- Disclaimer

Footer Bottom:

- Copyright notice.
- © 2026 Anant Chaudhary. All Rights Reserved.
- Functional Back to Top option.

Design requirements:

- Maintain the black, red and gunmetal theme.
- Use subtle borders and spacing.
- Keep the footer minimal.

- Three horizontal columns on desktop.
- Responsive layout on mobile.

8. LEGAL PAGES

Create separate pages for:

1. Privacy Policy
2. Copyright Policy
3. Terms & Conditions
4. Disclaimer

I will provide the complete content and legal information for these pages separately.

For now, prepare their page structure and design, but do not publish generic or placeholder legal content without my approval.

9. SEO REQUIREMENTS

The entire website must be developed with proper SEO practices.

Please ensure:

- SEO-friendly URL structure.
- Proper heading hierarchy.
- Image alt attributes.
- Internal linking.
- Canonical URLs.
- XML sitemap.
- Robots.txt.
- Open Graph metadata.
- Mobile-friendly layouts.
- Optimised images.
- Proper page indexing settings.

Meta Titles & Meta Descriptions:

Please prepare suitable SEO meta titles and meta descriptions for every page, including individual book and article pages.

However, do not publish or finalise them without showing them to me first.

I want to review and approve the meta titles and descriptions before they go live.

Keyword Optimisation:

Use relevant keywords naturally throughout the website content.

Please ensure:

- Keywords match the actual subject of each page.
- Primary and secondary keywords are used appropriately.
- Keywords are included naturally in headings and page content wherever relevant.
- Avoid keyword stuffing or unnecessary repetition.
- Maintain natural readability and content quality.

The content should be written for actual readers first, while following proper SEO practices.

10. APPROVAL PROCESS

Before finalising the website:

1. Prepare page-wise layouts and previews.
2. Share the proposed content structure.
3. Prepare SEO meta titles and descriptions for my approval.
4. Share the keyword strategy and explain how keywords will be incorporated.
5. Obtain my approval before publishing final content or metadata.
6. Test all forms and functionality.
7. Verify desktop, tablet and mobile responsiveness.

IMPORTANT:

Please first make it, don’t chase perfection . it will update through the time

Color theme :

Pure Black — `#050505`

Primary website background
